Kallea

Happily Never After

17th June '22

Kallea is here again bringing her meaningful lyrics in her new song, **"Happily Never After"**.

Penned by Kallea with mixing and editing completed by Jack Weston and Archie Norris from The Write Music Group.

"Happily Never After" is a song about how we don't always get the happily ever after we so often read about in books or watch in movies. 🤔

We don't often tell people about the bad parts of our relationships; on social media, people mostly share the highlights of them.

Sometimes, our book boyfriends/girlfriends are much better than those we meet in real life. 📖 😊

Kallea is back performing live at events around the Northwest, including the Right to Roam Festival, Bolton Food and Drink Festival and Glaston-Bury.

Kallea says "she is so excited at releasing this new song, she can't believe how far she has come in such a short space of time@
